PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (May 2026) with hands-on experience building and deploying full-stack applications using React.js, Node.js, and Python. Proficient in RESTful API design, JWT authentication, Docker, and SQL. Solved **100+ DSA problems** on LeetCode, HackerRank, and CodeChef. Led technical workshops training **80+ students** and coordinated events for **300+ participants**. Seeking a Software Engineering role to apply skills in a real-world environment.

EDUCATION

Srkr Engineering College

B.Tech, Computer Science Engineering – **CGPA: 7.5 / 10.0**

Bhimavaram, Andhra Pradesh

Aug 2022 – May 2026

- **Coursework:** DSA, OOP, DBMS, Operating Systems, Computer Networks, Web Technologies, Software Engineering

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), C, SQL, HTML5, CSS3

Frontend: React.js, Responsive Web Design, UI Design

Backend: Node.js, Express.js, Flask, RESTful APIs, Microservices

Databases: MySQL, PostgreSQL, Firebase, NoSQL, SQL Query Optimization

DevOps & Tools: Git, GitHub, Docker, CI/CD, Postman, Linux, VS Code, Figma

Methodologies: Agile, Scrum, TDD, OOP, Version Control

PROJECTS

Office Portal Management System | Node.js, Express.js, MySQL, Docker | [GitHub](#)

Sep 2024

- Architected RESTful API backend with 15+ endpoints for user lifecycle management, reducing admin tasks by **40%**
- Implemented JWT authentication with role-based access control (Admin, Manager, Employee), strengthening app security
- Optimized MySQL queries using indexing and connection pooling, improving API response times by **30%**
- Containerized and deployed application using Docker with automated npm scripts, achieving **99.5% uptime**

AI Customer Support Chatbot | Python, Flask, NLP, PostgreSQL | [GitHub](#)

Jul 2024

- Built real-time chatbot achieving **85% intent classification accuracy** across 20+ query categories using NLP
- Reduced API response time to **under 2 seconds** via Flask optimization and server-side caching
- Integrated sentiment analysis and entity extraction, improving customer satisfaction by **25%** in user testing

FinTrack Personal Finance Dashboard | Figma, UI/UX, User Research | [GitHub](#)

May 2024

- Designed finance dashboard validated with **20+ real users**, achieving **95% satisfaction** in prototype testing
- Conducted 3 usability testing rounds with iterative refinements, reducing user errors by **60%** and dev handoff time by **50%**

LEADERSHIP & ACTIVITIES

Technical Club Lead

Aug 2024 – Present

Srkr Engineering College

Bhimavaram, AP

- Organized 5+ workshops on web development and software engineering, training **80+ students** in modern tech stacks
- Mentored juniors in DSA and full-stack development; coordinated industry tech talks and coding competitions

Event Coordinator – Annual Tech Fest

Nov 2024

Srkr Engineering College

Bhimavaram, AP

- Managed logistics for **300+ participants** across 3 technical events (hackathons, coding contests) on time and within budget

NSS Volunteer

2023 – Present

Srkr Engineering College

Bhimavaram, AP

- Contributed **40+ hours** to community service, social awareness campaigns, and student welfare programs

ACHIEVEMENTS

- Ranked **Top 25%** among 200+ participants in college Hackathon 2025 – built a working prototype in 24 hours
- Solved **100+ DSA problems** on LeetCode, HackerRank, and CodeChef covering Arrays, Trees, Graphs, and Dynamic Programming
- Maintained **7.5 CGPA** while leading the Technical Club and independently delivering 3 production-quality projects
- Received faculty appreciation for organizing workshops that upskilled **80+ students** in full-stack web technologies

CERTIFICATIONS

- **Full Stack Web Development** – Coursera | React.js, Node.js, REST APIs, Database Design | *Mar 2024*
- **Java Programming** – Oracle Academy | OOP, Java SE, Data Structures | *Jan 2024*
- **Python for Data Science & AI** – Coursera | Python, ML, Data Analysis | *Nov 2023*
- **Generative AI Fundamentals** – Oracle | LLMs, Prompt Engineering | *Sep 2024*
